Dog Toys Made In USA by Squishy Face Studio - Our Story

[Dog toys made in USA](#) by Squishy Face Studio. Innovative and durable products for strong, active dogs and the people who love them.

Squishy Face Studio is a Florida based, family owned business started by Justin and Jessica Lohmann in 2009. Our mission is to create the most innovative and durable toys and accessories available for strong and active dogs. Our products are designed to provide both physical and mental exercise, with the goal of keeping your dogs happy and healthy. Also, our dog toys made in USA with pride.

Our Pack

We are constantly inspired by our own small pack; Petey, Max, Lily and Mr. Kitty (who thinks he is a dog). All three of our actual dogs have been labeled "pit bulls" or pit bull mixes at one point or another. The truth, as it is with many if not most rescued and adopted dogs, is that they are MIOs (Mutts of Indistinguishable Origin). What DNA tests and conformation standards can't tell you is that they are a perpetual source of happiness, a constant reminder of what is right with the world. They love us and we love them, and nothing in life gets any better than that.

Pit Bull Advocacy

We are passionate dog advocates, specifically defending "bully" breeds and opposing Breed Specific Legislation. We feel that education is the key to changing the circumstances of these misunderstood animals. We also advocate adoption from animal rescues, shelters and the Humane Society. We donate frequently to organizations that promote these ideals and work to reach the awesome goal of No More Homeless Pets both in our local community and throughout the nation.
